Project Name	TravelMate
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem statements for TravelMate:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A college student planning a 4-day trip.	Create a day-wise itinerary that fits my budget.	I have to search many websites and compare places manually.	No single tool combines a personalised plan, map and budget.	Overwhelmed and unsure about my plan.
PS-2	A working professional with very little free time.	Plan a short weekend getaway quickly.	Researching timings, distances and costs takes hours.	Generic travel blogs are not personalised to my interests.	Frustrated and short of time.
PS-3	A traveller planning a trip with family or friends.	Keep the trip within our budget and keep the plan in one place.	Costs and notes are scattered across apps and chats.	There is no consolidated view of planned spending.	Anxious about overspending.
