## Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

| **Phase of Journey** | **Stage 1: Discover & Sign Up** | **Stage 2: Plan & Generate** | **Stage 3: Review, Budget & Export** |
|---|---|---|---|
| **Actions**<br>What does the customer do? | • Opens the TravelMate website<br>• Reads the features and sample Kyoto itinerary<br>• Signs up or signs in through the modal | • Clicks Plan New Trip<br>• Enters destination, dates, budget, group and preferences<br>• Requests an AI itinerary | • Reads the day-wise itinerary<br>• Explores the map and directions<br>• Checks costs, edits the trip and exports a PDF |
| **Touchpoint**<br>What part of the service do they interact with? | • Homepage hero and CTA buttons<br>• Features and How It Works sections<br>• Auth modal | • Trips dashboard<br>• Create Trip form<br>• Loading indicator during AI generation | • Itinerary modal<br>• Leaflet map and Google Maps links<br>• Budget tracker and PDF export |
| **Customer Thought**<br>What is the customer thinking? | • Is this simple to start?<br>• Will it really save me planning time? | • Will it understand my interests and budget?<br>• How long will the plan take? | • Is this plan realistic?<br>• Am I still within budget? |
| **Customer Feeling**<br>What is the customer feeling? | • Curious<br>• Hopeful | • Interested<br>• Slightly impatient while waiting | • Confident<br>• Satisfied, or cautious if over budget |
| **Process Ownership**<br>Who is in the lead on this? | • Frontend (React) and Supabase Auth | • FastAPI backend and Groq AI service | • Frontend: map, budget tracker and PDF export |
| **Opportunities**<br>How can we improve this stage? | • Guest preview before sign-up<br>• Social sign-in options | • Progress feedback while generating<br>• Saved preference presets | • Share itinerary link<br>• Weather information<br>• Multi-currency budget |
