Communication

Date	23 October 2026
Team ID	[Your Team ID]
Project Name	TravelMate
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Team chat	All team members	Share progress and blockers.
2	Progress Update	Weekly	Video call	Team and mentor	Review completed sprint work.
3	Issue / Bug Discussion	As Needed	Team chat, GitHub	Developers	Resolve bugs such as deployment errors.
4	Stakeholder Review	Bi-Weekly	Video call	Team and mentor	Collect feedback on design and features.
5	Final Demo Rehearsal	Once	In person / video call	All team members	Practise the demo flow and timing.
6	Code Updates	Per change	GitHub commits	Developers	Track changes (e.g., commit a7febfa).

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Deployed frontend failed with "supabaseUrl is required".	Identified missing VITE_ environment variables in Vercel and added them; re-verification pending.
2	Keeping frontend and backend URLs and CORS settings aligned.	Documented the Vercel and Render URLs and the FRONTEND_URL setting.
3	Tracking redesign work across seven phases.	Delivered phase by phase and committed to GitHub.

Channels and participants are typical defaults; update them to match how your team actually communicated.
